The Sciences Po has a long and distinguished history. It was founded in 1872 as the École Libre des Sciences Politiques, and it has since become one of the most prestigious universities in France. The Sciences Po has been home to a number of leading scholars in the field of international relations, including Raymond Aron, Stanley Hoffmann, and Pierre Hassner.

The Sciences Po offers a variety of undergraduate and graduate programs in international relations and political science. The undergraduate programs include a three-year Bachelor's degree and a four-year Master's degree. The graduate programs include a two-year Master's degree and a three-year Ph.D. degree.

The Sciences Po has a strong commitment to research. The faculty is actively engaged in research in a wide range of areas, including international security, global governance, and comparative politics. The Sciences Po also has a number of research centers and institutes, which provide support for research and teaching.

The Sciences Po is a global university. It has campuses in Paris, Reims, and Menton, and it offers a variety of exchange programs with universities around the world. The Sciences Po also has a strong alumni network, which provides support for students and graduates.

The Interdisciplinary Approach

The Sciences Po's interdisciplinary approach to the study of international relations and political science is one of its defining characteristics. This approach allows students to gain a comprehensive understanding of the complex forces that shape world politics.

The Sciences Po's faculty is drawn from a wide range of disciplines, including history, economics, law, and sociology. This diversity of perspectives allows students to approach international relations and political science from a variety of angles.

The Sciences Po's interdisciplinary approach is reflected in its curriculum. Students are required to take courses in a variety of disciplines, including history, economics, law, and political science. This ensures that students have a solid foundation in the core concepts of international relations and political science.

The Research Commitment

The Sciences Po has a strong commitment to research. The faculty is actively engaged in research in a wide range of areas, including international security, global governance, and comparative politics.

The Sciences Po also has a number of research centers and institutes, which provide support for research and teaching. These centers and institutes include the Center for International Studies, the Center for European Studies, and the Center for Comparative Politics.

The Sciences Po's research has a significant impact on the field of international relations and political science. The faculty's research is published in leading academic journals and books, and it is frequently cited by policymakers and other scholars.

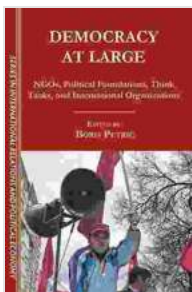

The Global University

The Sciences Po is a global university. It has campuses in Paris, Reims, and Menton, and it offers a variety of exchange programs with universities around the world.

The Sciences Po also has a strong alumni network, which provides support for students and graduates. The alumni network includes a number of leading figures in government, business, and academia.

The Sciences Po's global reach allows students to gain a truly international perspective on international relations and political science. Students have the opportunity to study abroad, to participate in exchange programs, and to network with leading scholars and policymakers from around the world.

The Sciences Po in International Relations and Political Science is a leading research and teaching institution in the field. It offers a unique interdisciplinary approach to the study of international relations and politics, drawing on the expertise of scholars from a wide range of disciplines. The Sciences Po has a long and distinguished history, and its graduates have gone on to become leaders in government, business, and academia.
